

## FROZEN CATTLE

**FROZEN CATTLE.**

of the Great Snow Storms,

ing the extent of the damage to Western ranges, occasioned by the recent snows, have never been thoroughly comprehended, for the reason that ranchmen have been unwilling to have their losses known. It had been claimed that few cattle have died, whereas, if recent reports are to be credited, the herds in many localities have been decimated. "It is the most fatal storm ever known in the West," said Mr. George D. Ford, a prominent cattleman who has just returned from a trip into the Panhandle. "That of last winter wasn't a circumstance to this one, though ranchmen

but goodhouse to consider it a pretty good one. I never saw anything like it along the drift fence north of the Canadian River dead cattle are strewn by thousands. An actual count in places shows 150 dead animals to the mile. At this rate is kept up the entire length of the fence, which is 200 miles, there are 30,000 dead cattle in this one place. They include Colorado, Kansas, and No Man's Land through cattle that have drifted down to the fence along the Arkansas River, west of Dodge City, the situation is as bad. The through cattle have drifted down from the Union Pacific and have been frozen by thousands. The irrigating ditch north of the Arkansas River is full of carcasses."

"It is coextensive with the snow. Wyoming, New Mexico, and Texas, the cattle are in good shape, but in Kansas, the

Colorado, north of the Arkansas River, the losses on through cattle have been frightful. They will not fall short of 50 per cent. as in some ranches southwest of Dodge City the losses on the natives will aggregate

per cent. I tell you there never has been  
such a winter. Entire herds of shrou

cattle have been wiped out. A herd driven down to Palodora Creek in the Panhandle and took shelter under a bluff, around which runs a road. They died there, and the carcasses had to be dragged away before the stage could pass. Around Dodge City cattle in sheds were frozen to death. Many of the smaller owners will be bankrupt.

"Will the price of cattle go up in consequence of the losses?"

"I am afraid not, and that's what makes the case so bad. There are lots of cattle in other parts of the country, and Texas cattle especially will not affect prices. The Texas people are hard up, and Kansas, Colorado and Indian Territory men being unable to help them, they will sell at any price."

**Canadian National Park.**  
The district near Banff, in the Canadian Rocky Mountains, where it is proposed to establish a national park, is said to be a beautiful spot. It is renowned for its

on trout, its duck, and its wild geese, with other attractions are fine scenery, a magnificent waterfall, and hot springs of remarkable qualities. Of the springs a recent visitor says:—They compare at present of the

principal springs or outlets, in which was highly impregnated with sulphur, boils of the sand. The water in the hottest at present known has been tested and found to raise the thermometer to 112° Fahr. In the second, which is the one generally made use of, and with which L.

Landsdowne was highly pleased, the water attains a heat equal to 90 degs. Fahr. the third or coolest one it rises only 80 degs. Fahr. The three are situated on the side of a mountain, which to all appearance is nothing but sulphur, and during a month's stay in the vicinity the writer came across no more than seven caves, and six hot springs come out of the side of the mountain. The railway line of the Canadian Pacific Railway runs close to the proposed national park.

# The Tribune

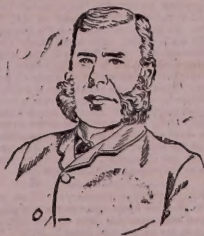

FRIDAY, MARCH 6, 1886.

The Ontario Legislature is still sitting but the business transacted this session has been of little importance, and the public manifest no interest in the proceedings.

The public accounts of Canada for 1884-85, show the revenue to have been \$32,797,001, and the expenditure upon consolidated account \$35,037,000, leaving a deficit of \$2,240,000. The customs revenue was \$16,935,428; excise, \$6,449,101; miscellaneous revenue, \$7,412,471. The expenditure upon funded debt was \$15,245,385; the ordinary expenditure \$12,094,827, and charges on revenue \$7,193,378.

The Annual Report of the Minister of Public Works forms a bulky and interesting volume. The expenditure of the department for the fiscal year ending June 30th, 1885, was \$2,682,624. Of this amount there was spent on public building \$1,069,460; harbours and rivers, \$844,165; dredges and dredging, \$161,703; slides and booms, \$109,634; roads and bridges, \$20,143; telegraph lines, \$132,273; and miscellaneous, \$45,242. In addition to this expenditure there was paid for river and harbour improvements in Quebec an additional amount of \$692,531. Quebec always gets the lion's share of the public moneys. Of the amount granted for public buildings, Ontario received \$598,234; for harbours and rivers, \$393,664, and dredges and dredging, \$19,895.

The Report of the Minister of Justice as to Penitentiaries in Canada is to hand. From it we learn that the number of convicts in the various penitentiaries of the Dominion on the 30th June last was 1,112, of whom 1,070 were males and 42 females. Of these, 537 were in the Kingston institution which had 496 males and 41 females. There has been an increase of 73 convicts this year, Ontario furnishing an undue proportion of this increase. The total value of buildings, stock, &c., on hand at these institutions is \$2,540,689. The value of the Report would be greatly increased were the financial statements of the different institutions summarized in comparison with the expenditure made. With the true instinct of a Canadian Government official the Inspector frowns down the agitation which has arisen of late years to prevent the competition of prison with free labor. However, on other grounds he opposes the contract system as he holds that the intercourse of the employees of the contractors with convicts has a bad influence.

W. P. HUDSON, M.P.P.

Referring to the member for East Hastings the *Morning News* says:—

"W. P. HUDSON, M.P.P., East Hastings, made himself famous recently by his speech delivered in opposition to the bill relating to the width of the wagon tires. Armed with a practical knowledge of the subject, and veiling the strength of his language in a tone of quiet sarcasm, he delivered Mr. Speaker a homily upon wagon tires that fairly made the members roar. It about killed the bill, too, though the measure managed to creep through to the municipal committee. Hudson is a Conservative, with the best-natured face in the world, and attends strictly and conscientiously to his duties."

While the readers of THE TRIBUNE may be divided in their estimate of the political principles of the member for this riding, they are all united in acknowledging that in Mr. Hudson they have a representative who is a gentleman of sterling honesty and unimpeachable integrity.

## CHECK REINS.

Check reins, as a general rule, are of little use on the road, except in the case of inveterate stumblers. These it is necessary to sometimes check up high, so as to make them lift their feet, and besides, if they do trip, the check rein punishes them severely. Stumbling is chiefly due to bad shoeing; hence this use of the check, savors of needless cruelty. If a horse shows a tendency to stumble, pull off his shoes and drive him barefooted, being careful not to break his hoofs. It will soon get over the tendency in all probability. When the feet wear, if they do, so as to necessitate shoeing, if it is summer weather put on toe clips only, and renew them often. The check rein is used to make a naturally down-headed horse carry his head high, or as high as his mane, and it is often made an instrument of torture, by unfeeling grooms and drivers. The real use of the check is to prevent a horse getting his head to the ground when standing. It is of no use at all, except as above explained, when travelling. Every horse works better without one, whatever work he does.—*American Agri-culturist for March.*

## DISTRICT.

Brockville's population is 8,388. The Cobourg roller rink has gone up in smoke.

Foot pads are plying their vocation in Cornwall.

There is a good opening for a cheese factory in Flinton.

The Kingston Presbytery meets at Kingston on the 15th of March.

Geo. Porte, jr., of Flinton, broke his leg recently while loading saw-logs.

There will be an increase of 1,000 names on the voters' list of Kingston.

Thomas Hogan has been re-elected Reeve of Wolfe Island by acclamation.

Mr. S. D. Clark, of Odessa, contemplates the erection of a butter factory.

Grand Trunk employees contributed \$350 to the sufferers by the Belleville floods.

Kingston registered during February, births, 19; marriages, 8; and deaths, 17.

The Ontario Government will spend \$29,351 on Rockwood Asylum at Kingston this year.

The Dominion government paid the K. & P. R. \$45,000 last year on account of subsidies.

Joseph Sharbot, of Sharbot Lake, had one of his legs broken recently while hawking timber.

Belleville's vital statistics for the month of February were: births, 8; marriages, 4; and deaths, 8.

Three Kingston gamblers were recently fined on several hundred dollars by Brookville experts.

The monster demonstration of Orangemen at Belleville, on July 12th, will be the largest ever held in the Dominion.

The amount expended on the Murray canal during the year ending June 30th, was \$148,902, and the Trent River works, \$191,382.

Dr. Curtis, of Kingston, has returned home from a trip to the Southern States, of which he does not think much, though he has purchased 5,000 acres of land all the same.

## NEWS OF THE DAY.

Cardinal Angelico Jacobini is dead. Tuesday was the Pope's seventy-fifth birthday.

Another outbreak against the French in Tonquin is reported.

# SONG OF THE SEA WEEED.

As some vile or worthless weed,  
Oh! cast us not away;  
Fair child of Earth but pause and heed,  
Our tints as bright as gay.

For we are the Ocean's flowers,  
You heedless throw aside;  
We grow and bloom 'mid coral bowers,  
Beneath the deep blue tide.

There we our varied tints display,  
Of brightest hue, and richest dye,  
We make the Ocean's meadows gay,  
Unseen, unknown to human eye.

Now from our home too rudely torn,  
Upon the barren shore we lie;  
Despised, neglected and forlorn,  
Left here to wither and to die.

Oh thus it is when youth is past,  
And all its freshness gone;  
How many on the world are cast,  
Uncared to drop and pine alone.

Like us when love's brief dream is o'er,  
When care has dimm'd the once bright eye;  
How many on life's brighted shore,  
Are left to wither and to die.

T.G.P.

## A MOTHER'S LOVE.

Some day,  
When other braid your thick brown hair,  
And drape your form in silk and lace;  
When I too bent beneath the cross,  
And held your hands and kiss your face,  
You'll not forget that far above  
All others is a mother's love.

Some day,  
When you must feel love's heavy load,  
You will remember other years,  
When I too bent beneath the cross,  
And mix my memory with your tears,  
In such dark hours be not afraid;  
Within their shadows I have prayed.

Some day,  
A flower a song, a word, may be  
A link between us strong and sweet;  
Ah then, dear child, remember me!  
And let your heart to "mother" beat.  
My love is with you everywhere;  
You cannot get beyond my prayer.

Some day,  
At longest it cannot be long,  
I shall with glad impatience wait,  
Amid the glory and the song,  
For you before the Golden Gate,  
After earth's parting and earth's pain  
Never to part! Never again!

## A TOOL RACK FOR A SHED.

One of our most useful buildings, a correspondent writes us, is a hay shed built with strong posts set in the ground, boarded up and down, and with a double board roof. It is fifty feet long, sixteen feet high, twenty feet wide, and when full of hay, held forty tons. In the front of it, for sixteen feet, is a shed under which wagons can be driven. This is boarded over, ten feet high, and is very handy to run a load of hay or grain under, if caught in a shower. The shed also serves as a store house for small tools, chains, etc. Strips of one and one-half by three inch stuff are nailed around the shed on the posts, and in the racks thus made, are placed all the spades, shovels, axes, grab hoes, mattocks, spade forks, stone hammers, chains, and all other odds and ends of useful things which are wanted at a moment's notice. Before this was done there was always a hunt here and there for any little thing when it was needed, and time and temper was lost, too; afterwards, every one—there being a convenient place for the tools—left them in their places where they belonged, and they are now always ready when wanted. *American Agriculturist for February.*

## RASPING AND GREASING HORSES' HOOFES.

The horse is one of the most superbly perfect of Nature's works, viewed physically; and he occupies besides an exalted position among animals as to his intelligent and moral qualities. It is therefore most painful to see how, under handling of intelligent (?) man, he is maltreated and abused. He is made to work to the point of exhaustion, and he is allowed to lie in the mud and filth, and he is allowed the galling check upon the movements of his head, and yet given him his best services even to death. The ignorant smith has his views as to what should be the shape of his feet; so he cuts and rasps, and forms them to suit himself. He has an idea, that the hoof is made on purpose for him to rasp and shoe, and exercise all the tools of his trade upon. So he makes a shoe and fits the hoof to it; he removes the natural polished exterior, which by its tough elasticity defends the tender parts from injury, is nearly impervious to water, and permits a little evaporation of internal moisture, by which it is kept normally pliable and vitalized to the very surface; leaves it in a condition to allow the moisture of the hoof to pass off rapidly, and the hoof to dry and crack, and then he recommends the application of tar and grease and lamp-black, as if he were trying to render an old boot pliable and presentable. The greasing may be as well enough—better than nothing—after the mischief is done. But why do sensible horse-owners allow the evil which their peremptory orders, if not their mere remonstrance would prevent. *American Agriculturist for March.*

In this Department the BIG STORE still maintain their well known reputation for keeping only the best quality and the most fashionable Goods manufactured, their facilities for buying, and the immense quantity of Boots & Shoes disposed of, enable them to offer at more advantageous prices than can be done by other competitors who profess to sell the same class of Boots. Do not be induced to purchase inferior Goods simply because the price is low; such articles are dear at any cost. The Big Store do not impose upon their customers trashy goods, but sell only first-class articles, and this principle has won for them their well earned reputation which is so generally known and appreciated by their Customers and the Public.

THE BIG STORE is the head rendezvous for Groceries and Provisions of Sterling Quality and finest brands. Canned Goods of every description in the market being on sale, but space will not permit us to enumerate in detail the specialties obtainable, but suffice it to say that for all Provisions reasonable and of the best quality, we recommend THE BIG STORE as unsurpassable.

HARDWARE, CROCKERY, GLASSWARE, LAMPS, VULCANISED CHIMNEYS, RUBBER GOODS PAINTS, OILS, SALT.

We must not omit the astounding fact that the sales at the BIG STORE during the month of October were the largest since the erection of this establishment, which proves beyond doubt that in their endeavors to supply their Customers with the best goods at the most reasonable prices, they have won the confidence of the public, and now beg to thank their Customers for the very liberal support hitherto accorded them, and in the future solicit a continuance of the patronage so gratuitously bestowed upon them during the past!

FRIDAY, MARCH 12, 1886.

A great mass meeting was held in Toronto on Monday evening at which, after very enthusiastic addresses, resolutions were carried protesting against the concession of any measure of home rule for Ireland. It is thought that this expression of opinion, emanating from such a centre of culture as Toronto, will counterpoise the action of the Parliament of Canada which some time since passed a resolution requesting the British Government to grant home rule to Ireland. It remains to be seen what effect the Toronto resolutions will have upon the Imperial Parliament. We say for fear that it will not create much impression on the minds of British Legislators. The vast majority of Britons do not know whether Toronto is in Alaska or Patagonia.

From the Eighteenth Annual Report of the Department of Marine and Fisheries, we learn that the total amount expended on the various branches of the public service administered by that department, for the year ending June 30th, 1886, was \$1,038,892.96. The whole number of persons engaged in the outside service of the Department at the close of the calendar year was 1,414. The total number of light stations in the Dominion, on the 31st December last was 526, and of lights shown 617; the number of steam fog-whistles and automatic fog-bellows 35. The total tonnage of the Dominion on the 31st December, 1885, was 1,231,816, the number of vessels being 7,315, of which, 1,131 were steamers with a tonnage of 219,570. Of this tonnage Nova Scotia owned 541,832 tons; N.S., 107,354; P.E.I., 839; Quebec, 203,835; Ontario, 144,487; Prince Edward Island, 36,040; British Columbia, 11,834; and Manitoba, 5,439. Coming to the principal ports, St. John stands first with a tonnage of 233,947; Yarmouth, N.S., has 130,129; Windsor, N.S., 117,354; Quebec, 101,614; Montreal, 96,744; Halifax, 84,444. In Ontario, Kingston leads with 20,403; St. Catharines follows close with 20,099, and Ottawa third with 18,899.

**THE LICENSE ACTS REPORTS.**  
The annual report of the Provincial Secretary on the working of the various Shop License Acts for the year 1884-5 shows that 3,997 licenses of all kinds were issued during the year, against 4,233 in 1883-4 and 4,106 in 1882-3. Of these 3,226 were ordinary tavern licenses, 24 beer and wine, 675 shop, 28 wholesale and 14 vessel licenses. The decrease in the previous year was distributed as follows:—115 tavern, 106 shop, 8 wholesale and 7 vessel. The revenue derived by the province from license and fines was \$92,867, against \$93,225 in the previous year \$93,023 in 1882-3. There was a falling off in the ordinary revenue from this source consequent on the decreased number of licenses but there was a large additional revenue from the increased duties, which went wholly to the province, amounting to nearly \$100,000. The total collections from provincial licenses and fines, including the sums imposed by municipal by-laws, were \$540,299, against \$444,754 in the previous year, and \$435,132 in 1882-3. The payments to the municipalities fell from \$247,246 in 1883-4 to \$235,589 last year. The fines collected during the year amounted to \$18,836, and the amount paid in respect of expenses of commissioners and salaries of inspectors was \$44,792 against \$49,710 in the previous year, and \$47,735 in 1882-3. The fines collected in Toronto amounted to \$2,647, and \$2,516 was paid in respect of the expenses mentioned.—*W.G.*

## NEWS OF THE DAY.

Severe weather still prevails on the continent. The mails in many instances have been stopped in transit in consequence.

It is said that a serious difference of opinion between France and China has arrested the progress of the negotiations for a commercial treaty between the two countries.

Mr. Gladstone has progressed so far with his lands expropriation scheme, as to require the services of Sir Henry Thring, the Parliamentary counsel, to draft the details of the Bill.

Roumelia has agreed to abolish the duties on goods which have already paid a customs tax on entering Turkey. France will probably now give her consent to the Turco-Bulgarian treaty.

At a meeting of the East Middlesex Farmers' Institute, held in London on Friday, a resolution was adopted strongly condemning the wanton slaughter of insectivorous birds for their plumage.

There are 1,069 persons employed in the civil service, Ottawa. The Interior Department has 207 and yet little work can be accomplished. Petitions, etc., blue mold in the pigeon holes.

Major Logan, Capt. Street, Montana ranchmen, have secured 200,000 acres of land from the government for ranching purposes west of Woody Mountain at an annual rental of 1 cent per acre.

The Belfast Presbyterians have adopted a series of resolutions expressing loyalty to the Queen, favoring land reform, occupying ownership and reduced rents, and opposing Local Government in every shape.

At a meeting of unemployed seamen at Sunderland yesterday was announced that all the Sunderland ship owners, with one exception, promise to employ British in preference to foreign sailors.

The returns issued by the English Board of Trade show that the imports during the month of February decreased \$2,590,000 as compared with those of the corresponding month last year, and that the exports decreased \$470,000.

There is a manifest improvement in the condition of the British merchant marine. The improvement is especially notable in the revival of the shipping trade. A line of sixteen steamers which have long lain in idle

ness have just been chartered for carrying purposes in the English trade. The ships have engaged British seamen principally, and in no case at reduced wages.

Mr. Gladstone is all right again, and working hard on his Irish schemes. It is said that after her London season Patti will return to Paris and marry Nicolini. Advice from North Hastings indicates a renewed interest in gold mining in Marmora and Madoc.

The Grand Jury have brought in a true bill for manslaughter against William Monk, the old man who shot William Skrimpton in London, Ont., last month.

A fire in the heart of the business portion of Montreal yesterday destroyed from \$100,000 to \$150,000 worth of property, and one fireman is supposed to have perished. The Toronto Street Railway Company have discharged thirty-two of their employees for joining a labor organization, the remainder to the number of about 300 ceased work.

A want of confidence motion, which preceded the debate on the address in reply to the speech from the Throne in the Manitoba Legislature yesterday, was defeated by a vote of sixteen to eight.

The recent very close vote in the House of Commons on the question of the disestablishment of the Church of Wales has created a profound impression in London, as showing how advanced public opinion is in this matter.

John B. Gough will save \$30,000 in small sums to a large number of relatives, and \$1,000 each to half a dozen charitable missionary societies. The personal property and real estate go to the widow.

One hundred and twenty-five Chinamen working near Mount Tabor, three miles from Portland, Ore., were driven into the city by a masked mob of whites on Saturday morning. No violence was done.

Juan Gonzales, the notorious bandit known as Long Bearded, has been killed at Majagual. He had a list on his person containing the names of fifteen rich sugar planters whom it is supposed he intended to kidnap and hold for ransom.

An explosion in Reed's coal mine in the Comberville, Pa., region is supposed to have killed outright six men, while of the ten taken out of the mine it is feared that only a few will recover.

By the bursting of her boiler the English tug Riddlemen and her crew of six were blown to atoms. The cylinder of the engine struck a passing Italian ship a quarter of a mile away and killed the pilot.

Earl Graville stated in the House of Lords last evening that a committee had been appointed to inquire into the advisability of establishing a British mail line between Vancouver Island and Hong Kong.

It is calculated that the disestablishment of the Church of England would set free funds equal to \$917,300,000, of which, after the payment of all old claims by the clergy for compensation and similar demands, there would remain net gain of \$500,000,000.

A band of 30 Apaches 10 days ago attacked a party of travelers 15 miles south-west of Nogales, Sonora, Mexico, killing one Mexican and one American. They then proceeded to William Brown's mine and killed Brown and a companion, James Moser. They then camped near San Pedro where they stole 80 horses from the settlers.

Great indignation has been caused among factory girls at Burnley, England, by a notice which has been posted in one of the mills there. It is to the effect that all young girls employed must cease to wear fringe on the foreheads and fasten up their hair and must part their hair down the centre. Failure to comply is to be punished with dismissal.

**NORTH WEST ITEMS.**  
The Indian excitement has died out round Prince Albert.

The Manitoba Legislature met for the transaction of business on Monday last. The people of Battleford have petitioned the Government not to remove the Battery from their midst.

In the Prince Albert district a large amount of money has been paid out by the Government on account of rebellion losses.

It is stated the immediate release of Poundmaker and the half-breed prisoners at Stony Mountain Penitentiary has been decided upon.

## FARM & GARDEN

### LIVE STOCK IN MARCH.

The neglect of stock in the spring, entails heavy loss all through the summer; especially is this true with horses that have to carry the burden of spring work. With out making superfluous flesh, they should be gradually fed up and kept at work sufficient to harden them, so that when the plowing has to be done, they will be in good working order. You must not stint the supply of food to the cows that are fresh, or they will lose so much flesh that the milk yield will be materially cut down all through the summer, for the cow will look after her own flesh before she will devote herself to the milk pail. Give the calves and young things generally, that generous care that surely starts them on a successful career. Neglect of the young is the first step toward shillies farming. The cold rains and north winds of this winter have done much more trying on all kinds of live stock, than colder and drier weather. For this reason keep all stock housed that can be. Do not allow warm days to deceive you in keeping the animals out at night, when they are likely to become painfully chilled. —American Agricultural for March.

### BEE NOTES FOR MARCH.

The experience of many beekeepers, not all novices, is that while they can get their bees through the winter well the early spring is the most trying time. The life of the worker bee is short at best, and the great proportion of those that go into winter quarters die before the season is half over. New brood must be reared to maintain the strength of the colonies. It is often fatal to succumb to start colonies at work rearing broods too soon, which is done when they are placed too early upon the stands before the weather remains continuously propitious. It is better to wait. Colonies coming through the winter very strong may be trusted out earlier than weakly ones. Warm weather will excite the bees to activity; if this occurs unusually early, the colonies should be kept as quiet as possible. When the red buds of the Soft Maple put forth, the bees, as a rule, may be safely released from their imprisonment. Queens are liable to disease and death, and it happens that sometimes a colony is without a queen. In such a case it may well be united with a weak one that has a queen. If both are liable to examination, prove healthy. If honey is exhausted, feed, and it will well place fine, unboiled rye flour where it is accessible to the bees. They will use it in place of pollen, if few flowers are open or the weather rough.

### THE CARE OF DUCKS

Ducks are a very pleasant feature of farm yard surroundings. In the last of winter and early spring they are sociable and busy enough, especially on warm days, and begin to lay very early. The duck almost always lays her egg between six and nine o'clock. We have found ducks to do better if they can be confined at night, in winter, in a shed where the horse manure is thrown out, than anywhere else. The heaps of manure heat somewhat, and the ducks enjoy the warmth. It makes them lay early, and the eggs are not likely to freeze, if we have severe "snaps." Barley and oats are excellent food for ducks. If these or any grains are thrown into a shallow tub, or trough, they will soak and be all the better relished. Pekin Ducks are among the best layers, by far the best in our experience, laying not infrequently sixty to eighty eggs each, in the spring, and often again in the autumn, if the weather is warm. If ducks are not confined at night, they will make nests in some hedge-row or secluded spot difficult to find, and one will become broody after laying sixteen to twenty eggs, or as soon as she has a good clutch. When confined as we suggested, they rarely make nests, but drop their eggs about anywhere. Ducks are very fond of water, and if access to the watercourse bed at the spring, there will soon be none left for the salad bowl. Wire-netting, a foot in height, will form an effectual barrier.

### POULTRY NOTES.

Cabbage, as a succulent green food for poultry, has no rival.

Remember! there is more need of ventilating a poultry-house in winter than in summer.

It is a bad plan to be always giving your poultry some tonic or medicine. Such birds are never well.

Breeding stock should be kept up to the full measure of their natural vigor, but never forced beyond it.

Feed cayenne pepper plentifully to your fowls, both old and young. It braces up the old fowls, and keeps gages away from the chicks.

Raw onions chopped fine, with a little grated horse radish, incorporated in warm mash, is an excellent and stimulating meal for fowls on a cold winter morning.

If every poultryman applied to the roasts and walls of his poultry-house more whitewash, more sulphur and more kerosene, he would have more cackling hens—consequently more profit.

In the matter of acceptable flesh the Plymouth Rocks claim a large share, for their fine flavoured and close grained meat, which with their yellow skin, good shape and plump appearance, especially adapts them for the market.

There are thousands of farmers who have to make a good living, and some that don't even make that, raising grain and vegetables when, if they would devote a small part of the time to the raising of poultry, could make something to lay up for a wet day.

No hens or pullets will lay eggs in December, cold winter if they are exposed to the inclemency of our December and January weather. Now and then we find an egg or two, dropped by the fowls in mid winter. But, as a rule, unless we deal them with warmth and kind usage then, they will not "discount" for us in the extreme cold season.

The man who thinks it "easy" to raise poultry on a large scale is usually stronger in that opinion before he has tried it than afterwards. It can be done, but it must be done by one who is patient, methodical, painstaking and thoughtful. Success depends upon close attention to a multitude of details—of doing a great many things at just the right time, and at no other time. It is a business which will bear a great deal of study before entering upon it.

### GETTING OUT MANURE.

The good old way was to get out manure on snow or frozen ground, for then much heavier loads could be hauled. If intended for oats, barley, wheat or potatoes, it was spread at once out of the wagon, or dropped in heaps to be spread without further carting. When intended for corn or any other late crop, the custom has prevailed of making a big heap at a convenient point, where the manure usually underwent heating before the time came to spread it and plow it in. It is not wise to spread manure on frozen ground and leave it long to the weather. Under some circumstances no considerable loss from washing and evaporation would take place, whether spread or placed in small heaps. The march of invention has greatly changed this now, with the manure spreading carts we can spread faster than we can plow, if the spreader has a reasonable start, so that we need not break up our compost heaps and hurry out our manure so long before we can turn it under. After it has been spread, either upon one load, or one "bout" around the outside, the plowing may begin and the spreader will keep ahead of the plow-man. The saving of labor is great, and the system on large farms is constantly extending.—American Agriculturist for March.

The extraordinary popularity of Ayer's Cherry Pectoral is the natural result of its use by intelligent people for over forty years. It has proven itself the very best specific for colds, coughs and pulmonary complaints.

## EVERY DEPARTMENT!

### FURS! FURS!! FURS!!!

A large assortment at the most reasonable prices.

Ladies' Astrachan Jackets; Persian Caps, Muffs and Boas; Seal Caps, Muffs and Boas; Mink Caps, Muffs and Boas; Black Fur Caps

A splendid assortment of Woolen Goods at remarkably low prices for Women and Children, unsurpassed by anything in the Trade.

Flannels of every description and quality now in Stock at the BIG STORE, and we respectfully solicit an inspection of these Goods; they are special value and will excel in make and prices anything previously offered to the public in Deseronto.

The Tailoring Department is now replete with the most fashionable and varied makes of goods that can be obtained in the European and Continental Markets, and we wish to impress upon our friends, that, as the best of Trimmings only are used in the making up of Garments, we can guarantee a style and finish which will stand comparison with any House in the Trade. Mr. Stoddart, who is already well known for his superiority in making a good stylish fit, is in charge of this Department, and will be pleased to have an opportunity of exhibiting these special goods to his friends, and quote prices for same.

## BOOTS and SHOES.

In this Department the BIG STORE still maintain their well known reputation for keeping only the best quality and the most fashionable Goods manufactured, their facilities for buying, and the immense quantity of Boots & Shoes disposed of, enable them to offer at more advantageous prices than can be done by other competitors who profess to sell the same class of Boots. Do not be induced to purchase inferior Goods simply because the price is low such articles are dear at any cost. The Big Store do not impose upon their customers trashy goods, but sell only first-class articles, and this principle has won for them their well earned reputation which is so generally known and appreciated by their Customers and the Public.

THE BIG STORE is the head rendezvous for Groceries and Provisions of Sterling Quality and finest brands. Canned Goods of every description in the market being on sale, but space will not permit us to enumerate in detail the specialties obtainable, but suffice it to say that for all Provisions seasonable and of the best quality, we recommend THE BIG STORE as unsurpassable.

## HARDWARE, CROCKERY, GLASSWARE, LAMPS, VULCANISED CHIMNEYS, RUBBER GOODS, PAINTS, OILS, SALT.

We must not omit the astounding fact that the sales at the BIG STORE during the month of October were the largest since the erection of this establishment, which proves beyond doubt that in their endeavors to supply their Customers with the best goods at the most reasonable prices, they have won the confidence of the public, and now beg to thank their Customers for the very liberal patronage hitherto accorded them, and in the future solicit a continuance of the patronage so gratuitously bestowed upon them during the past!

### LONSDALE.

From Our Own Correspondent.  
Pleasant weather for this time of the year; splendid evening. Farmers all sat making things lively.

The Apprentices Boys Lodge No. 24, have decided to not have a picnic at present, it being so late in the season they fear bad roads.

Reveling parties, surprise parties, socials, wedding parties, horse races, and entertainments of all sorts which would take too much space to chronicle.

Mr. Joseph Fox and Miss Sarah Kaner are to be married on Wednesday, 10th inst. We wish them a prosperous journey through life. But, oh, just think of a gentle land being carried off by a fox.

Great quantities of cedar posts daily arriving for fencing on the Indian Reserve, which are immediately taken by parties waiting for them to arrive, some having to go back without loads. Glad to see such a determination made to supply the long much needed fencing on the reserve.

The basket social which came off on the 3rd inst. was a very interesting affair. The programme was excellent and well suited as young as they used to be while part of the excellent contents of the baskets with charming young ladies by their sides. We were much pleased to meet our old and much esteemed friend, the Rev. Mr. Kahnorehony, on the occasion. He and his daughters took an active part in both vocal and instrumental music, &c., and performed their part admirably, as also did Miss McLean, of the Indian Reserve, and others too numerous to mention, in fact all did splendidly. The social was a success giving general satisfaction. Proceeds, \$21.00.

With sadness we report the death of Mrs. Lavina Kimmerly, aged 78 years, at her son's on the old homestead, on the 1st inst. She was the widow of the late Peter Kimmerly, who settled in this Township about half a century ago when it was a forest. She had been a constant member of the Methodist Church about forty years; her home was always a welcome resting place for the weary minister who had to travel on foot to his appointments, when there were no roads through the woods, while she lived on the farm. Her end was peaceful. The funeral was attended by a large number of relatives and friends on the 5th inst. at the Empress Hill Church. The solemn services were very ably conducted by the Rev. Mr. A. P. Taylor from the 116 psalm and 15th verse: "Precious in the sight of the Lord is the death of his Saints." After which the body was taken to the train near Napasee.

### SOPHIASBURGH.

From Our Own Correspondent.

The weather has been fine but pretty cold; the sleighing is failing, but folks are making good use of the sleighs for church purposes are raging now.

Mr. James Boulter, Big Island, had a social last week; it was a better cold night, but notwithstanding a goodly number were there and had a happy time.

Last Wednesday evening Mr. Wellington Boulter, proprietor of the Pictou Canning Factory, had a social; there was a very large gathering, and the night both fine and the sleighing good. As Mr. Boulter is a jolly host and Mrs. B. as jolly a hostess every body enjoyed the evening. His paternal residence was well filled and every body enjoyed the evening. We hope to see more of this kind of good feeling at social gatherings.

I heard of several other parties; also two or three weddings, but as that news did not seem authentic I will wait further developments.

Death has visited a good many homes within the past two weeks. Mrs. Joseph Fisher, of Deseronto, who was quite an old lady; Mr. W. G. Foster, of the Indian Reserve, and Miss Blanche Cole, of Waterford, all died. Mrs. J. Valles, of the High Shore, also died. Some young people, some old and some middle aged.

There was advertised a great Salvation Army meeting to take place on Friday evening last in the Town Hall. There were a great number turned out to hear and see them; the hall was warmed and lighted and all waited anxiously for the grand army to put in an appearance, but strange to say no army appeared. No excuse was offered, and all the anxious audience had to go home without having their curiosity satisfied. I don't know whether they did not come, unless they were afraid to take the roads; there excuse me, I will take that back and say Deserontoites, but as that is such a long name I guess I will not say it again. I must be careful. I do not see any more of Sam Seede. I wonder what is the matter, perhaps he has frozen up this cold spell, if so, I hope he will soon thaw out.

I see our worthy Rover has been away to Toronto interviewing the Mowat Government in reference to wire fences. I hope they have been successful; the wire fences along our roads have been a great public benefit, and I hope they will continue them. We have some roads that are still very much in need of wire fences.

I hear of some cases of scarlet fever below Northport, but none very serious.

### MACDONALD.

From Our Own Correspondent.

Mrs. Goodfellow, upon two days last week with her friends in Milltown. Mrs. Thompson has been the guest of our esteemed postmaster.

Mr. Fred Richardson passed through here on business last week. He was accompanied by Mr. Henry Gault and Miss Wainwright.

Mrs. Mary Hicks and her two sisters were returned home from a visit to Prince Edward, they report a good time.

On Saturday last while Mr. Geo. Spencer was in the woods near Mr. John Dingman to get his summer's wood, he was carrying a large stick when he slipped

and fell, the stick falling across his leg severely injuring him, but fortunately not breaking the limb.

Weather fine; some think we are to have spring soon, but it will be some time yet before we can get going.

Mrs. Beal, Richardson, Mr. John Hambley, and Mrs. John Cole are ill. Mrs. Hambley and Miss Martha Hambley are recovering.

Mr. Richard Dingman, we regret to say, has left to spend the summer in Prince Edward.

Our school is progressing nicely; Miss Carvalles is giving good satisfaction as a teacher.

Mr. Fred Mott passed through here on Sunday.

The farmers are all busy finishing up their winter's work and getting ready for summer operations.

There was a large turn-out to Church on Sunday, and I noticed a great number of strange faces whom we will gladly welcome again.

### MELROSE.

From Our Own Correspondent.

The school was closed for a short time on account of the teacher, Mr. Frost, having a sore throat. There are no cases of sore throat at present.

The chief amusement and topic of conversation in the vicinity at present is a Mutual Improvement Society. One of the members of the society is Mr. J. A. Taylor. The meetings of the society are held in the old Presbyterian church.

For a wonder one of our local celebrities in the gossiping line has had her talk brought home to her in spite of all the stories she told and excuses she made to get out of them. People wonder she would talk it, if for no other reason than that "people who live in glass houses should not throw stones".

### SHANNONVILLE.

From Our Own Correspondent.

Mrs. J. C. Ash, of Deseronto, spent a few days very pleasantly among her old friends in this place.

Mr. W. McKinnon was in town not long since receiving old acquaintances.

We were much pleased to see our respected friend J. C. Lazier present at the Sabbath School on Sabbath last.

Report made by Mr. H. Taylor has been re-engaged at the Mountain Cheese Factory for the coming summer.

The Deseronto Amateurs performed the Lady of Lyons to an appreciative audience on Thursday evening last. Among those present we noticed the pleasant faces of the Twin Brothers of Deseronto.

Quite an amusing scene was presented to us several mornings ago; it appeared as one of our merchants was bringing a load of groceries from the depot a young gentleman anxious for a drive took a seat on a barrel of syrup standing in the back of the sleigh; he was complimenting himself on having obtained such an exalted seat when in turning a corner he was thrown off his perch together with the barrel rather violently into a snow bank.

We learn that revival services are to be commenced here on Sunday next.

Rev. Amos O'Connor, of Belleville, will preach on Sunday evening next in the Methodist Church on behalf of the Educational Fund.

### GREEN POINT.

From Our Own Correspondent.

Mrs. A. Brooks, of Morven, has been visiting her sister, Mrs. H. Carman.

Mr. & Mrs. Brewer, of Deseronto, have been the guests of Mr. H. T. Carman.

Mr. Chaney Short, who has been in Chicago for three or four months, returned home sick last week.

Mrs. & Mr. Henry Carman have been visiting friends in Lennox and Addington.

Miss M. Cole, of Belleville, has been visiting friends here.

Mr. & Mrs. D. Chapman are visiting at their former home in Roslin.

Mr. L. G. Robin is busy getting lumber to build in the spring.

Mr. Jay Reynolds has been drawing out water from the new building in Deseronto.

Mr. A. Vandusen has returned home from his visit to Tweed of whose future prospects he speaks very highly.

A social concert at Mrs. Carmel on Tuesday evening of last week in aid of the Sabbath School. There was a very good attendance. The "jubilee" singers of Deseronto were over, and their music and singing was considered a rare treat and was highly appreciated. Mr. Thomas Naylor also gave a piece entitled "The Scotch Farmer Selling his Farm," which was excellent. I think it would please some of the young ladies better if Thomas would buy a farm in this locality.

### READ.

From Our Own Correspondent.

Last Wednesday evening Ash Welland the first day of Lent there was divine service in St. Charles' church.

Messrs. Whims and Foley have erected the new altar in the church and the pews were occupied last Sunday. They will prove a great convenience as a large number of the congregation were without seats.

As will be seen in another column, Mr. Bartholomew O'Connor, of the 4th con., of our starry young men went to the north in search of a wife. He was married on the 2nd inst. at St. Mary's church, Niagara, by the Rev. Father Delisle, to Miss Mary Ellen O'Connor, second daughter of Mr. William Barry. We wish the young couple every happiness.

Mr. & Mrs. O'Connor returned home last Sunday from their wedding trip. On the same evening they held a reception and dance when a large number were present, and the bride and bridegroom received the congratulations of their friends.

The wedding bells are still ringing. Although many of our bachelor friends have forsaken single life, yet there are a few

bravos left, "a small and lonely band." One of our worthy and well known bachelors determined that he would no longer remain among "the small and lonely band," and setting the action to the word he sallied forth to the north in search of a wife and obtained the object of his affections.

On Wednesday last Mr. Edward McKinnon, second son of late Mr. John McKinnon, of Wexford, was married to Miss Anne Leonard, of the 7th con. The ceremony was performed by the Rev. Father McCarthy. We wish our friend Ed. every happiness, and trust that his bride may have every happiness. We find that the young couple are very much pleased with their new home, and that after last wedding guests will be left "the decent church that tops the neighbourhood hill."

The bells of Shannonville were informed were lately heard through the ancient and flourishing village of Lonsdale tinkling as they heard to the north and west. Oh, what an agitation, what a sensation, what a palpitation they did cause. Cupid's cunning little fellow.

The assessors are busy still in the northern part of the township. We hear some grumbling on account of their raising some. However, they cannot please every one. We could not have a better man in the position than Messrs. Gripp and Drummie.

### TYENDINAGA RESERVE.

From Our Own Correspondent.

Who passed in himself and three ladies as performers at the Shannonville entertainment.

Mr. Peter P. Brant was seized with hemorrhage of the lungs last Friday, and remained in bed in a critical condition. We look for his speedy recovery.

Joshua and Walter Brant have finished their contract of drawing wood for the Rathbun Company at Rogers' wharf. The quantity drawn was 540 cords.

We are all under great obligations to the Deseronto Dramatic Association for their kind service at Shannonville. Owing to the heavy expenses we did not, however, reap very much benefit by the performance.

Who likes to sponge? On Wednesday, March 9th, a general council was called, a discussion was held regarding fencing, which had been presented to the Superintendent General of Indian Affairs by Chiefs Culbertson and J. Johnson.

The meeting and general musical entertainment for the benefit of the Sunday Schools of the Reserve came off on Tuesday evening, March 9th, and proved one of the best entertainments of the season. There was an excellent attendance. Chief S. Loft presided. Addresses were delivered by Mr. Kahnorehony, Chief S. G. Greer, and Mr. Jacob B. Brant; excellent music was contributed by the choir, and many a duet by several ladies and gentlemen.

There was only one thing lacking in the musical department, and that was the absence of Mr. Joseph John, whose absence was much felt. His general favorite, in his absence Miss Kahorehony filled the vacant place on the programme by giving the solo "Just to please the boys."

The entertainment was given in the National Anthem. Our thanks are due to the people of the Reserve and many outsiders who extended such a liberal patronage. The credit of this success is largely due to the energetic committee who had the affair in hand.

### DESERONTO.

From Our Own Correspondent.

We have been called upon to record several instances of mortality in this vicinity.

Miss Blanche Cole, youngest daughter of Mr. Jerry Cole, of the Fish Creek neighborhood, died after a few days illness on the 1st inst. Blanche was a promising girl of 16, greatly beloved by all, and the pet of a happy household, and her premature death was deeply and universally lamented.

She was laid to rest in the family burying ground on Big Island. On the day of her funeral, Mr. Warren Foster, of the same neighborhood, happened to be here on the 2nd. He had been ailing and feeble for many years, but notwithstanding death came suddenly at his home. The day of his funeral was one of the coldest of the season, but a great multitude of his friends and neighbors gathered to pay the last tribute of respect to his memory. The funeral services were conducted by eminent members of the Society of Friends, Mrs. Brewer and Mrs. Varny being the chief speakers.

On the same day Mr. Foster's funeral, Mrs. Fisher, one of the oldest citizens of Deseronto, was buried in the village burying ground. The funeral services were held in the Methodist Church, conducted by the Rev. J. C. Ash.

On Friday last, Mrs. Anson Allison, of Jericho, mother of Mrs. James Ferguson, died of Deseronto, was borne to the silent city of the dead. The funeral service was held in the Methodist Church, and she was buried in the Pictou cemetery.

There was a very pleasant family gathering at the residence of Mr. J. H. Ross, of this village, on Tuesday the 2nd inst., to celebrate his golden wedding. Friends gathered from all over the county, and many agreeable surprises made the day so interesting. It is not every man who is so well waited in the second wife as friend Ross, and his family gathering was a spontaneous expression of hearty good will.

The Methodists of Big Island—north and south—purpose having a grand festival in the South Church (Moran's) on Thursday the 18th inst. The Rev. Messrs. Clark, Fisher, Hill, of Belleville, and Campbell, of Northport, may be expected.

"What a gathering of the faithful that will be."

### NORTHPORT.

From Our Own Correspondent.

Mr. & Mrs. Isaac Wilson, of Bloomfield, gave us a call this week.

The first of our sick list is composed of Mr. Gilbert Carter and two of Mr. W. A. Foster's children. All are in a fair way for recovery.

The farmers of this locality are busy getting out timber for their dock out of Northport.

They seem determined to have a shipping place of their own; we wish our wharfer in town would show as much enterprise in this matter as the farmers. The present one is very much in need of repairs.

Mr. Collins, shoemaker, has been busy getting in his for next season's work. We notice that his week's issue an article speaking of a railway from Pictou to Deseronto taking in Deseronto and Northport. Such a undertaking would meet the approval of all as we don't see why such a line should be of general benefit.

From what the Belleville papers say it would appear that the Quilts will run from Trenton to Montreal this summer. The public would regret the removal of such a favorite steamer from their old route.

### LOCAL ITEMS.

Mr. J. DALTON is doing a brisk trade in sewing machines and organs.

Mrs. George D. Smith has the contract of excavating Goodmury's cellar and of building the stone wall. He is making rapid progress.

## The Tribune.

FRIDAY, MARCH 10, 1889.

The debate on the case of Louis Riel still continues in the Dominion Parliament and evokes the greatest interest throughout the country. Several of the speeches delivered manifest the greatest eloquence and ability. It is supposed that a vote will be taken to-night and the issue is awaited with much concern. It is generally supposed that the government will be sustained by a majority of thirty votes.

The Local Legislature still continues in session though the business transacted is generally of the most trivial and unimportant character. With the Riel debate in progress at Ottawa the proceedings at Toronto are almost unnoticed by the public. The Ontario government seems to be completely set against any legislation of a progressive character. In this respect they are sadly disappointing their supporters throughout the country, and a large section of the Reform press is crying out against their masterly inactivity.

Every day brings a new batch of rumours concerning Mr. Gladstone's proposed legislation for Ireland. If we are to believe the cablegrams the great statesman is much embarrassed by the discussions in his own cabinet. It is satisfactory to observe, however, that the government is a unit on the propriety of granting home rule to Ireland, and on this point they will be undoubtedly sustained by parliament and the country. Closely identified with home rule is the land question, and in the solution of this it is reported Mr. Gladstone may meet with great opposition. It is said that Mr. Chamberlain, the great Radical chief, is averse to the scheme proposed by Mr. Gladstone. This plan proposes the purchase of the Irish estates for a sum variously estimated from one hundred to two hundred millions sterling. Even were the greater of these sums correct, we think the government would be justified in the purchase for forming small peasant farms in Ireland. If sold to the present tenants in less than twenty years the whole debt would be paid off and the government reimbursed for its expenditure. If the government itself takes the place of the present landlords the interest to be paid by tenants would provide revenue sufficient to pay the interest on the amount appropriated for the purchase of the land. We should think that on this part of the Irish question, at least Mr. Gladstone's policy should meet with entire support, as in the realm of finance, he is even by his opponents, acknowledged to be without an equal. His statement to parliament next week will be awaited with profound interest.

### THE STORY OF BLUEBEARD.

J. P. McMcKINCH, Ph. D.

There must be few, very few of us who have not been delighted in our youthful days by the ever new and ever thrilling story of Bluebeard. We have all trembled with expectation when the inquisitive wife opens the door for forbidden chamber; we have shuddered with horror at the awful sight which met her eyes when it was opened; we have waited for the wrathful her liege lord, the fate to be meted out to the unfortunate wife; we have stood upon the tower with the sister Anna watching breathlessly for the cloud of dust which was to herald the approach of the avenging brothers; and we have brooded freely again and clapped our hand with joy on their arrival in time to save their sister and summarily dispose of Bluebeard. But has it ever entered our heads in our mature years that there is something beneath this simple fairy tale, that it may have a deeper significance than appears upon the surface.

Such an idea is suggested by a perusal of the fairy tales or folk-lore of other nations in which the same story may be readily recognized, although presenting variations in the details. The similarity which it in all cases presents is so striking that there can be little doubt but that all the forms under which it is found are simply modifications of a more ancient mythical tale. In some instances we find Bluebeard identified with the Devil, in which case the opening of the forbidden door reveals the entrance to Hell, and the wife's life is forfeited as it is detected by a rose up on her bosom which is scorched and withered by the sulphurous blasts which ascend from the pit. This form of the tale probably comes nearer the original than many of the others, but even it shows signs of great modification for the subverting of religious and moral purposes.

When we trace the tale farther back we find ideas associated with it which it has since lost. Thus an Ogre takes the place of Bluebeard, and an element of gloom is introduced forming an essential portion of the story, and herein we have the key to the origin of the myth. It is a personification of Nature, it was originally an attempt of uncivilized and superstitious minds to account for the phenomena of Winter, the gloomy one, destroying the fair and beautiful Summer. The moral purposes which the more modern versions serve were then not thought of, all that was sought for was an explanation of the periodical change from Summer to Winter, from Winter to Summer. Gloomy Winter, slays, on after the other, his happy, joyous months of Summer, until finally Spring restores them to life and vanquishes their destroyer.

### LONSDALE & BRIDGEWATER ROAD.

The Superintendent of Colonization roads in his report referring to the Lonsdale and Bridgewater Road, says that "work was commenced at the line between concessions 7 and 8, and extended northward between lots 30 and 31 to the line between concessions 8 and 9; thence easterly on the last-named line to that between lots 33 and 34; and from thence again northward between the last mentioned lots to the 10th concession, a distance altogether of four miles, of which one mile was entirely new and the balance repairs to the road previously chopped out. Again, in Hungerford, beginning at lot 34 in the 3rd concession, and near the south end of the lot, the road was constructed northward on the said lot to the line between concession 3 and 4; and a third portion was built on the boundary line between Hungerford and Sheffield, from where the 5th concession line of Hungerford intersects, northward one mile, thus making two and three quarter miles of road constructed and three miles repaired. \$400 was expended and the County Council of Hastings contributed \$200 towards the portions built and improved in the Township of Tyndinaga.

### MUNICIPAL COUNCIL.

Deseronto, March 15th, 1886.

The Council met in regular session; all the members present and the Reeve presiding.

The minutes of last meeting were read and approved.

Petitions were received from Mr. Geo. E. Cleland and 20 others, praying that the Council would construct a drain on the east side of Scott-st. from Dundas to Thomas-street, and from there to Malloy and 19 others, praying that a drain would be made on Thomas-street from Second to Fourth-street.

Moved by Mr. Baker, seconded by Mr. Edwards, that the petitions be received and laid over to a future meeting of the Council. Carried.

The street Committee reported that 221 yards of gravel were placed on the streets since last report.

Moved by Mr. Baker, seconded by Mr. Edwards, that an order be drawn on the Treasurer in favor of Mr. Cameron for \$39.45 in payment for gravel, and also for delivering the same. Carried.

Moved by Mr. Edwards, seconded by Mr. Baker, that the Reeve get the opinion of a competent lawyer in reference to the accounts of Dr. Newton and Dr. Clifton for vaccination, and report to the Council at its next meeting. Carried.

Moved by Mr. Cameron, seconded by the Reeve, that Messrs. Baker, Stewart and Edwards be a Committee to have the gravel now on the streets spread, if necessary, before the next meeting of the Council. Carried.

Council adjourned.

E. N. IRVINE, Clerk.

# MARCH.

The stormy March is come at last,  
With wind, and cloud, and changing skies;  
I hear the rushing of the gentle rain  
That through the snowy valley dies.

Ah, passing few are they who speak  
Wild stormy month I in praise of thee;  
Yet, though thy winds are loud and bleak,  
Thou art a welcome month to me.

For thou, to northern lands again  
The glad and glorious sun dost bring;  
And thou hast joined the gentle train  
And wear'st the gentle name of Spring.

And, in thy reign of blast and storm,  
Sustains many a long, bright, sunny day,  
When the changed winds are soft and warm,  
And Heaven puts on the blue of May.

Then sing about the gushing rills  
And the full springs, from the frost set  
free,  
That, brightly leaping down the hills,  
Are just set out to meet the sea.

The year's departing beauty hides,  
Of wintry storms, the sulter threat;  
But, in thy sternest frown abides  
A look of kindly promise yet.

Then bring at the hope of those calm skies,  
And that soft sun, and that gentle rain,  
When the wide bloom, on earth that lies,  
Seems of a brighter world than ours.

## LITTLE HANDS.

Dear little hands, I loved them so;  
And now they are lying under the snow;  
Under the snow so cold and white  
I cannot see or touch them to-night.

They are quiet and still at last, Ah me,  
How busy and restless they used to be;  
But now they can never reach up through  
the snow.

Dear little hands, I loved them so,  
All through the day wherever I go;  
All through the night how lonely it seems,  
For no little hands wake me out of my  
dreams.

I miss them all through the weary hours,  
I miss them as others miss sunshine and  
flowers,  
Day time or night time wherever I go  
Dear little hands, I miss them so.

Dear little hands, they have gone from me  
now,  
Never again will they rest on my brow;  
Never again soothe my sorrowful face.  
Never clasp me in a childish embrace.

And now my forehead grows wrinkled with  
care,  
Thinking of little hands once resting there.  
But I know in my heart, heavily shined,  
Dear little hands, I will clasp you some  
time.

Dear little hands, when the master shall  
call,  
I'll welcome the summons that comes to us  
all.  
When my feet touch the waters so dark and  
so cold  
And catch my first glimpse of the city of  
gold.

Hi I keep my eyes fixed on the heavenly  
gate  
Over the tide where the white robed ones  
wait.  
Shall I know you, I wonder, among the  
bright bands  
Will you beckon me over, Oh, dear little  
hands.

"Sole's leg" on fowls may be cured by a  
few applications of kerosene; a little sulphur  
added will improve it.

There is an unlimited number of lives  
saved annually by using West's Cough  
Syrup in time. If people were to exercise a  
little more care and procure a bottle of  
West's Cough Syrup, when a cough first  
troubles them, after misery would be averted.  
Sold by W. G. Egar, druggist. Price  
25c, 50c, and \$1.00 per bottle.

Fowls need a liberal supply of water and,  
although they will live without it, yet they  
thrive and fatten the best when pure water  
is given them.

Early chickens pay the bill; prices are  
very much higher this season than in  
the fall, and even if the pullets are to be  
kept for layers, early ones are the best.

When the blood is loaded with impuri-  
ties and moves sluggishly in the veins, an  
alterative is needed. This condition of the  
fluid vital cannot last long without serious  
results. There is nothing better than Ayer's  
Sarsaparilla to purify the blood, and im-  
part energy to the system.

He who experiments carefully and re-  
peatedly under various circumstances, as  
regards breeds and feeding, may reach the  
certain conclusion that hens do now, in this  
country, and have for the past twenty years  
paid a high price. It is also true that the  
difference between the money paid out for  
feeding fowls and the same gained from their  
produce tends constantly to increase,  
as is evident from a comparison of the  
market rates through a series of years.

ADVICE TO MOTHERS.—Are you disturbed  
at night and broken of your rest by a sick  
child suffering and crying with pain of cut-  
ting teeth? If so send at once and get a  
bottle of "Mrs. Winslow's Soothing Syrup"  
for Children Teething. Its value is incalcu-  
lable. It will relieve the poor little sufferer  
immediately. Depend upon it, mothers;  
there is no mistake about it. It cures Dysen-  
tery and Diarrhoea, regulates the Stomach  
and Bowels, cures Wind Colic, softens the  
Gums, reduces Inflammation, and gives tone  
and energy to the whole system.

"Mrs. Winslow's Soothing Syrup" for children  
teething is pleasant to the taste and is the  
prescription of one of the oldest and best  
female physicians and nurses in the United  
States, and is for sale by all druggists  
throughout the world. Price twenty-five  
cents a bottle. Be sure and ask for "Mrs.  
Winslow's Soothing Syrup," and take no  
other kind.

Ayer's Hair Vigor stimulates the hair  
cells to healthy action, and promotes a  
vigorous growth. It contains all that can  
be supplied to make the natural hair beau-  
tiful and abundant; keeps the scalp free  
from dandruff and makes hair flexible and  
glossy.

The extraordinary popularity of Ayer's  
Cherry Pectoral is the natural result of its  
use by intelligent people for over forty  
years. It has proved itself the very best  
specific for colds, coughs and pulmonary  
complaints.

## NOTICE OF PRELIMINARY REVISION OF FIRST LIST OF VOTERS For the Electoral District of the East Riding of the County of Hastings under "The Electoral Franchise Act."

The Revising Officer for the Electoral Dis-  
trict of the East Riding of the County of  
Hastings, in the Province of Ontario, ap-  
pointed under "The Electoral Franchise  
Act," hereby gives notice that he has com-  
pleted and published in the manner directed  
by the said Act, the first general List of  
voters for the said Electoral District, and  
that he will hold a sitting pursuant to the  
said Act, for the preliminary revision of  
such list, at Graham's Hall, Timonaburg, in  
said County of Hastings, at eleven o'clock  
in the forenoon, on

Monday, 19th day of April, 1885.

Any person objecting to any name on the  
said list may, at any time before the said  
day, and any person desiring to add any  
name thereto, or desiring otherwise to amend  
the same, may, on or before the 10th day of  
April, 1885, deliver to the said Revising  
Officer, or send to him by registered letter,  
at his office, Tweed, Ontario, a notice in  
writing in the form for that purpose contain-  
ing in the schedule to the said Act, as nearly  
as may be, setting forth the name or names  
objected to, and the grounds of objection, or  
the name or names proposed to be added  
particulars of the qualification and residence  
of the persons whose names are proposed to  
be added, or the particulars of any other  
proposed amendment, and the grounds there-  
for; and every such notice must be signed  
by the person so giving notice, and must set  
forth his residence, occupation and post-  
office address. In the event of the person so  
giving notice objecting to the name of any  
person already on the list, the person so  
objecting must also deliver to or mail to the  
last known address of the person whose  
name is objected to, by registered letter, and  
at the same time as the notice is given to the  
Revising Officer, a copy of the notice given.

Dated the 15th day of March, 1885.

E. B. FRALECK,  
Revising Officer for the Electoral District  
of the East Riding of the County of  
Hastings.

IN

## EVERY DEPARTMENT!

## FURS! FURS!! FURS!!!

A large assortment at the most reasonable prices.

Ladies' Astrachan Jackets; Persian Caps, Muffs and Boas; Seal Caps, Muft  
and Boas; Mink Caps, Muffs and Boas; Black Fur Capes

A splendid assortment of Woolen Goods at remarkably low prices for  
Women and Children, unsurpassed by anything in the Trade.

Flannels of every description and quality now in Stock at the BIG  
STORE, and we respectfully solicit an inspection of these Goods; they are  
special value and will excel in make and price anything previously offered to  
the public in Deseronto.

The Tailoring Department is now replete with the  
most fashionable and varied makes of goods that can be obtained in the European  
and Continental Markets, and we wish to impress upon our friends, that, as the  
best of Trimmings only are used in the making up of Garments, we can guar-  
antee a style and finish which will stand comparison with any House in the  
Trade. Mr. Stoddart, who is already well known for his superiority in mak-  
ing a good stylish fit, is in charge of this Department, and will be pleased to  
have an opportunity of exhibiting these special goods to his friends, and quote  
prices for same.

## BOOTS AND SHOES.

In this Department the BIG STORE still maintain their well known  
reputation for keeping only the best quality and the most fashionable Goods  
manufactured, their facilities for buying, and the immense quantity of Boots  
& Shoes disposed of, enable them to offer at more advantageous prices than can  
be done by other competitors who profess to sell the same class of Boots. Do  
not be induced to purchase inferior Goods simply because the price is low,  
such articles are dear at any cost. The Big Store do not impose upon their  
customers trashy goods, but sell only first-class articles, and this principle has  
won for them their well earned reputation, which is so generally known and  
appreciated by their Customers and the Public.

THE BIG STORE is the head rendezvous for Groceries and Provi-  
sions of Sterling Quality and finest brands. Canned Goods of every description  
in the market being on sale, but space will not permit us to enumerate in de-  
tail the specialties obtainable, but suffice it to say that for all Provisions  
seasonable and of the best quality, we recommend THE BIG STORE as  
unsurpassable.

HARDWARE, CROCKERY, GLASSWARE, LAMPS, VULCANISED  
CHIMNEYS, RUBBER GOODS, PAINTS, OILS, SALT.

We must not omit the astounding fact that the sales at the BIG STORE  
during the month of October were the largest since the erection of this estab-  
lishment, which proves beyond doubt that in their endeavors to supply their  
Customers with the best goods at the most reasonable prices, they have won  
the confidence of the public, and now beg to thank their Customers for the very  
liberal support hitherto accorded them, and in the future solicit a continuance  
of the patronage so gratuitously bestowed upon them during the past!

## CORRESPONDENCE.

### PICTON.

From Our Own Correspondent.

A sad accident occurred in the town on Saturday last. When John Black and his son, of Sophiasburg, were leaving town for home, their horse, a very spirited animal, became frightened by the cutter coming against its heels, caused by one of the hold-back straps becoming unfastened. The animal rushed up with great speed, and when opposite the Coffee House ran into the door-yard of Edwin Roblin, completely wrecking the cutter. Mr. Black's head came in contact with the fence and crushed the side of his head. The son who was driving was not injured; the father only survived a few hours.

Another accident on the ice at Glenora occurred about the same time as the former. Capt. Angus Stanton and his two brothers, each with a large load of oats were on their way to Picton. One of the loads needed rescuing and one of the brothers left his sledging and went to his assistance. The team left standing, was making off and the sledging was left to jump off its sleigh to stop them, when he fell on the ice from the top of his load striking on his shoulder and head, and fell into the water. He will soon be around again, likely by the time navigation opens. Travelling on the ice is good now. The boats are in the vanguard of it by hauling grain, lumber, &c.

The court last week occupied only one day. Judge Cameron was on the bench, and in his address to the jury on the question, defending the Government for the course they took in the matter, and denouncing the French for kicking up a fuss, that is likely to make the pot boil over and give some of them a scolding.

St. Patrick's day will be celebrated here by a grand concert in the Town Hall in the evening, and the band playing a few pieces during the day.

Dr. Platt returned from Ottawa on Saturday and held a meeting in the Town Hall in the afternoon. Only Reformers were admitted.

### READ.

(From Our Own Correspondent.)

Mr. Martin Caudon, of lot 22 north range of the 6th con., had a sale of his horses, stock and agricultural implements, &c., on Monday last.

We regret to say that Prof. Denys, owing to professional engagements, has been obliged to resign as organist and leader on the choir of St. Charles Church. His departure is very much regretted, as it was hoped that he might have been enabled to continue for some time longer. It is impossible to do so. Prof. Denys has done wonders with the choir for the short time they have been under his direction.

Mr. Fairman has for the present taken in charge of the organ and choir. His departure is very much regretted, as it was hoped that he might have been enabled to continue for some time longer. It is impossible to do so. Prof. Denys has done wonders with the choir for the short time they have been under his direction.

Rev. Father McCarthy is in Belleville on Monday and Tuesday attending the Forty Hours Devotion.

There was Divine Service in St. Charles Church on Wednesday being St. Patrick's Day.

Mr. Lally, who died on the 9th inst., at the residence of her son-in-law, Mr. Thomas Morgan, of Richmond, was buried in St. Charles Cemetery on the 11th. There was a large attendance at the funeral. Mrs. Lally was mother of Mr. Michael Lally, licensee for East Hastings.

The meeting for selling the milk routes at the Albert Cheese Factory was held according to notice on Monday last. Mr. Michael Williams presided, and Mr. Denis Hanley acted as Secretary. The following took the milk routes: Mr. Callery 4th con.; Mr. Charles McGuinness, 7th con.; the Lonsdale route, Mr. James Daly, Mr. James Jordan, Mr. O. Krasso and Mr. Jas. Doyle. A general feeling having been expressed throughout the country that the factories should not open before the 10th of May, it was moved by Mr. Denis Hanley, seconded by Mr. Robert Sampson, that in accordance with a wide spread feeling the Albert Factory do not commence operation for the ensuing season until the 10th May, for the purpose of improving the market and guarding against new cheese being placed on the market before 1st of June, and to allow the old cheese to be sold off.

Carried.

Mr. Daniel McGee has been drawing gravel from Mr. McCormick's pit on the 7th con. He had a large number of teams employed, and hauled 160 yards on the side road between the 5th and 6th con.

The sleighing still continues cool, but a few more days like Tuesday will soon run it.

The prospects for an early spring are good, though we will, no doubt, have many rough days before the spring opens.

News is scarce now-a-days, therefore our correspondence is necessarily held the last few weeks.

### LONSDALE.

From Our Own Correspondent.

We were called to the death of a friend and relative on the 11th inst. The death of Mr. John Doyle, of Richmond, a few days ago; again of Mr. Daniel Callaghan, of the 3rd con. of Tyndinaga, and today, March 10th, we attended the funeral of Miss Ellen Thompson, of the 2nd con. Tyndinaga at the Emmaus church which was attended by a very large congregation of relatives and friends who had assembled to pay their tribute of respect to departed worth. She had been a great sufferer for a number of years. Some months ago she was thought by her friends that she was fast recovering but in a short time she was again taken worse and continued failing until death relieved her from her sufferings. The funeral services were very ably conducted by Rev. Mr. Poake, of Shannville, from second Corinthians, fifth chapter and ninth verse. We are confident, I say, and willing rather to be absent from the body, and to be present with the Lord; after which his mortal remains were placed in their last resting place with her father and relatives who had passed on before.

We are informed that the tea-meeting at the Empey Hill Church last evening was largely attended the night being so pleasant and mild. Parties gathered from all quarters to enjoy the treat, and have a social time with friends; and, no doubt,

it was the commencement of a new era in the life of our young people which will end in a union for life. All passed off very pleasantly, and the nice sum of \$40.00 was taken at the door.

People are still rushing to Lonsdale looking for places to do business. Mrs. Doxson's store store has been engaged and a new store is soon to be opened. Every vacant place is now engaged in our town and others wanted.

Mr. Foreman and his troop are to have a grand concert on Tuesday evening next in the Lonsdale Hall on a very pleasant time is expected.

### TYNDINAGA RESERVE.

From Our Own Correspondent.

Mr. Tom Green is busy erecting a handsome residence on his farm near Deseronto. Mr. John Fletcher has the contract.

Who got left Sunday evening the club? Mr. Fred O. Lott, of the Ontario Commercial College, Belleville, was visiting friends on the Reserve Saturday and Sunday. He returned to Belleville on Monday. Fred's many friends are pleased to notice his undertaking in the commercial course.

The churches on the Reserve will be opened for prayer during Lent; Christ Church, Wednesday morning at 11 o'clock; All Saints Church, Friday morning at 11 o'clock.

The Church choir practice on Friday at 7 o'clock. The churches on the Reserve will be opened for prayer during Lent; Christ Church, Wednesday morning at 11 o'clock; All Saints Church, Friday morning at 11 o'clock.

The young warriors will come. On March 3rd the Reserve will be opened for prayer during Lent; Christ Church, Wednesday morning at 11 o'clock; All Saints Church, Friday morning at 11 o'clock.

Many are busy drawing fishing post from the 3rd and 4th con. of Tyndinaga. Roads are getting very bad.

### HAY BAY.

From Our Own Correspondent.

Our pretty country roads of Hay Bay are in rather a bad state these days owing to the thaws to which they are subjected.

Mr. C. Maracle made a business trip to Picton on Saturday last week. The young warriors will come. On March 3rd the Reserve will be opened for prayer during Lent; Christ Church, Wednesday morning at 11 o'clock; All Saints Church, Friday morning at 11 o'clock.

Who is going to vote at the next general election? Mr. Kahaneradiashon is visiting Miss Pat of Richmond.

Political matter is the calorification of the reserve at present.

## LIFE IS WHAT WE MAKE IT.

Let's offer talk of noble deeds, And sing of our happy days, And not about the sad ones. We were not made to fret and sigh, And when grief sleeps, to make it; But happiness is standing by— This life is what we make it.

Let's find the sunny side of men, Or be believers in it; A light there is in every soul That takes the pain and wins it. Oh! there's a slumbering good in all, And we perchance may wake it; Oh! this should be a happy world— This life is what we make it.

Then here's to those whose loving hearts Shed love and joy about them! Thanks be to them for countless gains We ne'er had known without them. Oh! this should be a happy world— This life is what we make it.

To all who may partake it, This life is what we make it.

## NEWS OF THE DAY.

Monday Emperor William of Germany celebrated his 39th birthday.

The emigration from Ireland for the year 1885 was 62,420, against 76,043 in 1884.

General Freudenreich has met and dispersed a large body of rebels in Burmah.

Social meetings which were attended by thousands of working men, are being held in Berlin daily.

It is said that the Emperor of Russia has signed a decree, expelling non-naturalized Germans from Poland.

The Chinese in San Francisco are taking advantage of the low railroad rates and are going east in great numbers.

A number of persons were entombed by the collapse of a quarry at Baxes, France, Saturday.

A California is about to make an attempt to prove that he is rightful heir to the Tichborne estate.

Russia declines to join the Powers in co-ercing Greece to comply with Turkey's policy in the Balkan States.

Two men were killed, three fatally wounded and a dozen painfully injured by a fall of top rock at Pottsville, Pa., on the 22nd.

In the U. S. House of Representatives yesterday, the bill granting a pension of \$2,000 a year to the widow of Gen. Hancock was passed.

Campbell Bannerman, secretary for war, announced that the government had withdrawn the British troops on the Nile to Assuan.

Rev. Dr. Dwyer and Mrs. Bartlett, of Pimlico, England, has been committed for trial on the charge of having, with chloroform, caused the death of the latter's husband.

Mr. Alfred Aldworth, living about three miles from Bowmanville, was killed by lightning on Saturday while in bed with his wife and child, both of whom escaped with out injury.

Saturday night's sleet and rain storm committed great havoc in the city of Ottawa, the telephone poles and wires suffering to such an extent that the service was not worked Tuesday.

A fishing smack which arrived at Sandy Hook on Saturday picked up a yawl on Thursday near the mouth of the Oregon disaster, which is supposed to belong to the schooner which struck the steamship.

During the year 1885 the number of Germans who emigrated to the United States was 34,600; to Canada, 692; to Brazil, 1,000; to the Argentine Republic, 726; to Chile, 782; to Africa, 294.

On Saturday morning a tramp deliberately fired a revolver at the engine of a Canadian Southern train near Pelton, Ont., narrowly missing the engineer and seriously wounding the fireman. The miscreant escaped, but a vigorous search is being made for him.

The available coal of Alabama, collected into one lump, would be forty-five miles long by twenty-five miles wide by ten feet thick. A breaking off of 5,000 tons daily from the lump would leave a large part of it untouched at the expiration of 6,000 years.

Karl Blend has written a letter to the Times in which he strongly denounces Home Rule. He says it would entail on England constant vigilance, the expenses and danger of foreign invasion. It would subject the loyal Irish to the yoke of Popery and imperil religious equality and civil institutions.

The Irish defence union has written a long letter to Gladstone giving its views on the Irish question. The union declares first, that social order does not exist in Ireland; second, that the Irish farmers have been encouraged to repudiate the land acts of 1870 and 1881; and third, the demand for self-government is really a desire for complete independence.

Vernon Harcourt, chancellor of the exchequer, replying to Gladstone said the government was not disposed to appoint a special committee to examine and report upon the silver question, because the special commission now inquiring into the causes of the depression of trade would, in all probability, cover the silver question in its work.

Most of the late British Cabinet were smokers, and some, like Sir Michael Hicks-Beach, Lord Randolph Churchill and Sir Richard Cross, strong smokers. Lord Carnarvon, too was a good judge of a prime cigar as even Lord Derby, who blows a diamond into this air every time he lights a weed. The present Ministers, including the Premier are mostly non-smokers.

Michael Davitt in an address to the Manchester Liberal club this evening, said that should have a government with control of sufficient troops to defend the laws, and the power to veto any act of the Irish parliament. If the constitution should be violated the empire, with its irresistible power, should deprive Ireland of her parliament. He himself was a free trader and did not believe that the Irish would shut out English goods.

There is great distress in Newfoundland, and a few days ago the unemployed in St. John's gathered in crowds around the colonial office and demanded bread or work. The distress apparently is world-wide, no country being free from it, and where the struggle for existence will end no man can tell.

Corruption seems to be an adjunct of public office in every civilized republic. An attorney-general who took to the law in the interest of a telephone company, a board of aldermen in New York regularly engaged in selling railway franchises, and the public distribution of railway passes in the legislature at Albany, make up an pleasant picture.

Mr. A. Richardson, Manager of the Big Store, is out with his usual spring announcement, and we welcome him to the attention of the readers to the claims he makes for his great establishment in our advertising columns. His March sales this year are far in excess of those of last year.

Mr. John Dalton has been receiving a large stock of furniture and a visit to his popular establishment will well repay those seeking a good article in that line. His business has so steadily increased that he finds himself in need of more space.

Mr. Michael Candon, of the Reserve, who lives on the Gravel Road between this and Macvilleville intends moving into Deseronto. He holds a credit sale of stock and agricultural implements on Monday next at 1 p. m.

It will afford the people of the district a good opportunity to purchase a good stock of, at a bargain. See posters for particulars.

These cheese makers in Lennox have decided not to commence operations in their factories until May 10th. Each one is bound in \$1000 to keep his engagements. The cheese men are in fact boycotting the markets.

WHAT'S the matter with the Deseronto Dramatic Association? We understood they would again favor us with one of their admirable performances about Easter but up to the present they have not appeared.

No. 2 Express was three hours late on Monday evening. Owing to this cause a large number of passengers were inconvenienced at the Junction about on time to the great relief of the expectant passengers.

Mr. Edmund S. Grills, of Belleville, was in town last week purchasing cattle. He has disposed of his butchering business and is going to England with a drove of cattle for the London market. We wish him success in his new undertaking.

Ayer's Hair Vigor stimulates the hair cells to healthy action, and promotes a vigorous growth. It contains all that can be supplied to make the natural hair beautiful and abundant; keeps the scalp free from dandruff and makes hair flexible and pliant.

The extraordinary popularity of Ayer's Cherry Pectoral is the natural result of its use by intelligent people for over forty years. It is a powerful and specific for colds, coughs and pulmonary complaints.

WHILE Mr. Lyman Hull was busy working on the repairs to his motor, a lamp which was about him exploded and burned his neck and shoulders very severely. The charcoal core was tried and proved quite successful. Mr. Hull was able to be about the same evening.

The special train on Monday evening had to down breaks and stop the train to the westward. The passengers were inconvenienced by having to travel on principle.

After considerable delay the train proceeded on its upward course. And it was not a particularly bad trip either.

The forgeries committed by the absconding accountant of La Banque Nationale, of Montreal, are assuming formidable proportions as the investigation proceeds. The names of two customers of the bank have been found to be forged to cheques amounting to \$14,000, and it is feared that many others will be discovered.

The blind man and his boy were in the village on Monday paying their periodical visit. As he has to pay railway fare from Belleville to Kingston, he must find an unusual amount of generosity amongst our townspeople. As a victim of the Belleville floods he now makes his piteous appeal.

LOCAL TRAIN.—For the benefit of the travelling public, the following is the connection to the people of Deseronto, a mixed train leaves the R. K. Depot every morning at 7:45 for Kingston. Parties can go to Kingston or Napane, back same day, having about eight hours in Napane and four in Kingston. Low rates of Fare. Kingston to Napane, return, \$2.20. Napane and return, 50c.

This Deseronto Canoe Club held their annual meeting on Tuesday evening, when the following officers were elected for the next year, viz: S. Rathbun, Capt.; Geo. M. Clinton, M.D., Mate and Rev. J. Craig, Purser.

Other important business was transacted. The annual report of the club was presented at the Spring Meet in Kingston. It will hereafter be known as the Deseronto Canoe and Boating Club.

The voters list under the new Dominion Franchise Act has been published. It gives 491 names for Deseronto, of which 231 are in the township of Deseronto, and 260 in No. 2.

It is said that a large number of good Grit and Tory voters are missing, and that the franchise of the district are unsatisfactory. This fact is remedied in the second revision. Thurlow has 1,462 voters, Hungerford 1,088; Tyendinaga 1,181, 165 Mowbray.

SCARCELY had Mr. Warrantman's brown leg horn ceased cackling over their good record, when we were informed that Mr. James Richardson had secured since Jan. last, three Plymouth rocks and twelve Polanders no less than 325 eggs. Mr. Thos. Johnston has even beat that, as from Jan. 10th to March 20th, from thirteen Plymouth Rocks and Black Spanish he got 312 eggs. Tyendinaga and Richmond are yet to be heard from.

THE Hon. E. J. Phelps, the United States Minister at London has been informed by the Marquis of Salisbury in answer to a letter making inquiries that the Lawrence Towley estates matter (in which people in this vicinity are interested) is a gross fraud and that the United Kingdom Association set on foot in Toronto called "the Consolidated Lawrence Towley Association" is obviously for the purpose of defrauding the estate and grossly and fraudulently.

It is hoped that this will be a warning to all readers of this paper who may be disposed to permit themselves to be duped or deceived by the claims of these estates.

It was discovered that in his last will, Mr. Stoddard made a bequest of his estate and interests and complaints generally, which had effected some wonderful cures in different parts of the United Kingdom, and in fact, Mr. Stoddard has secured the agency of this useful medicine on this side of the Atlantic and will have it put into the United States and Canada.

It has been tested by many victims of asthma and similar troubles in Deseronto and vicinity and has been found to be a most valuable remedy for years having experienced almost instantaneous relief. Mr. Stoddard is making arrangements to have the medicine placed on the market at an early day. He has many flattering testimonials as to its great efficacy.

On the 16th inst. death claimed as his own Michael Horriggan, son of Michael Horriggan, of the ninth con, at the early age of thirty two years. Mr. Horriggan had been for some time an invalid and his death though deeply regretted was not unexpected.

Our mournful duties are not yet ended. We are called on to chronicle another death in the person of Mr. Daniel Naphin, the eldest son of Mr. Bartley Naphin of the eighth con, who died at his father's residence on the 20th inst. Mr. Naphin lived for many years in Michigan and returned but a few weeks ago in poor health. It was hoped a change to his native air might have proved beneficial but an allwise Providence ordered otherwise. It was a happy privilege to be surrounded by his relatives and friends and fortified by the rites of his Church he passed the last week from his view in the village of the 22nd inst. and was a large and representative one. Rev. Father McCarthy officiated.

The late Mr. Naphin was the eldest brother of Mr. John Naphin proprietor of the Naphin Hotel Lonsdale, and his father Mr. Bartley Naphin is one of the oldest and most respected residents of the village of Deseronto.

The bereaved family have the sympathy of the whole community.

The residence of Mr. Timothy Horriggan of the 9th con, was totally consumed by fire on the 19th inst. Almost everything in the house was burned. No insurance.

The most reliable weather prophet might be excused if he failed to predict the weather for the next twenty-four hours, on Monday last, when a heavy rain fell, and the "beautiful" dissolved into limpid streams a spring thaw seemed imminent but on Monday the snow fell heavy and thick and at night a severe frost set in and the sleigh bells were heard again.

Chief S. Loft and S. Green to interview the Superintendent-General of Indian Affairs on the 24th inst. and to report at the next general council. The council also authorized the various school districts to elect school trustees to look after the affairs of the schools on the 24th inst.

We were very sorry to see our churches closed on Sunday on account of Rev. Mr. Kahnouharough's illness; we sincerely hope he will soon recover from such severe attack of fever; his daughter, Mrs. Featherstonhaugh was at the same time very ill.

Miss Lydia, daughter of Mr. C. Maracle, has been confined to her bed with fever; she is now improving though slowly.

4TH CONGRESSION TYENDINAGA, March 23rd, 1886.

Our enterprising neighbor, Wellington Tripp, bought a traction engine and threshing machine. He was disappointed in getting it delivered to him at the time he bargained for it, and did not get it until the end of August.

Some threshers were out threshing two weeks before the time he bargained for it, and did not get it until the end of August.
